

SLIW AGENT

Operations & Product Design Brief

Hollywood-style representation for Edyta Śliwińska
Corporate team experiences · Wedding first-dance packages

CAA desk model · portfolio.dgacapital.com/sliw/

This document explains what lives “below the line”: the desk model, engagement strategy, how Edyta uses the app, the Lead Engine, outreach rules, Gamma packaging, weekly cadence, and the parallel Wedding Agent product.

1. What this is

Sliw Agent is a CAA / William Morris–style representation desk. It researches corporations (and separately, wedding clients), matches Edyta’s packages, builds Gamma marketing decks, drafts outreach for human approval, and filters warm leads so Edyta only spends time on conversations that can book.

2. Brand positioning

Lead with *team accelerator* and star power — never “hire a dance teacher.”

Corporate package	Duration	Primary buyer
The Icebreaker	60–90 min	Employee Exp / Events / CoS
Leadership Ballroom	Half-day exec	VP L&D / CHRO / HiPo
Tech-Decompress	4-week series	Wellness / Benefits
Office Stars	Gala + exec prep	Events / EA / CSR
Custom Collaboration Lab	Bespoke	CHRO / OD / DEI / M&A

Wedding package	Offer	Entry
Single private lesson	First-dance coaching	\$150
Lesson package ×10	Full prep arc	\$1,250
Dream Wedding Dance	Choreo + venue + day-of	Custom

CTA: complimentary discovery with Edyta.

3. Maximizing corporate engagement

Lead with...	Response
Dance instructor	Low
Holiday entertainment only	Medium
Culture / leadership offsite people remember	High

Triggers

- Holiday parties Aug–Nov → Office Stars, Icebreaker
- Offsites / retreats → Icebreaker, Leadership, Custom
- Post-funding / hiring → Icebreaker, Tech-Decompress
- M&A / reorg → Icebreaker, Custom Lab
- Wellness month → Tech-Decompress
- HiPo / L&D programs → Leadership Ballroom

Stage	Weekly target
New prospects researched	25–40
Tier A/B	10–15
Gamma decks	3–5 (A-tier)
Approved sends	8–12
Discovery calls (early)	2–4 / month

90-day goal: ~300 researched, ~80 contacted, ~15–25 conversations, 3–6 booked sessions.

4. Architecture below the line

Lead Engine → Package + Gamma → Outreach drafts → Human approve → Replies filtered → Edyta briefs only.

Stages: research → scored → packaged → drafted → approved → contacted → replied → interested → discovery_booked → won | lost | nurture

- Never auto-send
- Never invent pricing/logos/testimonials
- One package per first email
- Corporate and Wedding books stay separate

5. How Edyta uses the app

- Open **Edyta's desk** (warm leads only)
- Read one-page brief → 15-min discovery → confirm package/date/headcount
- Stage → discovery_booked / won / nurture
- Deliver on the floor; desk handles admin

She does not: cold research, chase vague maybes, commodity discounting.

Desk owns: Lead Engine, Gamma, approve sends, sequences, qualify replies.

6. Weekly cadence

Day	Action
Mon	Import 25–40 prospects
Tue	A/B review + 3–5 Gamma + sequences
Wed	Approve + send 8–12
Thu	Follow-ups + partners
Fri	Edyta warm queue + hygiene

7. Phases (launch build)

Phase 1: Expanded library, bulk import, sequences, This week checklist, Edyta home, contact enrichment.

Phase 2: Reply qualify flow, A/B subjects, partnerships book.

Phase 3: Wedding Agent parallel book, wedding Gamma, couple/planner sequences.

8. Wedding Agent

Same CAA pattern, different ICP (couples + planners). Separate CRM, romantic Gamma decks, Edyta still only sees interested clients with briefs.

9. Technical placement

- Code: apps/sliw-agent/ on DGA GitHub main
- URL: /sliw/ on portfolio.dgacapital.com
- API: /api/sliw/* + email allowlist
- Data: \$STOCKS_FOLDER/sliw-agent/
- Gamma: shared GAMMA_API_KEY
- Kill switch: SLIW_ENABLED=0

10. Launch checklist

- Deploy Railway → login as Alec or Edyta → /sliw/
- Confirm name under Sliw Agent
- Corporate → expand library → This week → sequences → approve sends
- Replies → Qualify → Edyta brief
- Weddings tab for secondary book

11. North stars

Desk: Find the room. Package the talent. Only book real opportunities.

Edyta: Read the brief. Hold the call. Deliver star power on the floor.

App: Research, score, deck, draft, filter — never send without approval.
